SEAN YU SEIZES SIXTH CIRCUIT TITLE

Los Angeles Poker Pro picks up third gold ring this season and second at the Bike.

Sean Yu has broken through to the World Series of Poker Circuit winner's circle once again, seizing his second gold ring at the Bike, third gold ring of the 2018/2019 season, and an impressive sixth gold ring overall. The 43-year-old from Los Angeles, California conquered a 143-entry field in Event #5: \$400 No-Limit Hold'em to his stat sheet.

Yu's first victory on during the 2018/19 Circuit tour occurred last November at Planet Hollywood. Yu followed that achievement up with another first-place finish at the early Bike series in December.

Although it seemed Yu was on quite the heater, tournament poker variance can catch up at any time. Coming into another series at his local Circuit, Yu did not start off too hot.

"Well, this series so far has been pretty brutal. I bricked everything and just came out fortunate to win this one," said Yu.

During Event #5 action, Yu was actually double tabling. The Poker Pro also had his hand in the adjacent H.O.R.S.E. ring event, the exact same event he won in December.

In this instance, another H.O.R.S.E. title was not necessary, as Yu took down the No-Limit Hold'em tourney for \$13,225 and, more importantly to him, 50 Casino Championship points.

“I was going back and forth today, hoping to capture some more points... to get back to the GCC,” explained Yu. “Hopefully I’ll lock it up by the Bally’s stop. It’s getting more competitive every year.”

Being his third Circuit title of the season, Yu now has a solid accumulation of Casino Championship points. The 50 points Yu gained from his recent triumph brings his overall total to 190 points and leaps his position to 21st on the [National Leaderboard](#).

Yu is looking to get back to the Global Casino Championship where he captured his WSOP gold bracelet. The top-50 points leaders at the end of the Circuit season receive an automatic seat in the 2019 GCC. Yu is sitting pretty at the moment but did mention he would travel to more distant Circuit stops if his spot was in jeopardy.
