## SHORT DECK

The object of Short Deck is to make a better five-card poker hand, using any combination of hole cards and community cards, than your opponents to win the pot. The deck consists of thirty-six (36) cards. The 2's, 3's, 4's, and 5's are removed. An Ace is still both the highest and lowest card in rank. Therefore, the holding of 9-8-7-6-A is a Straight.

### The rank of hands is as follows:

Royal Flush
Straight Flush
Four of a Kind
Flush
Full House
Straight
Three of a Kind
Two Pair
One Pair
High Card

### The play of the game is as follows:

- A Dealer Button is used to represent the Player in the Dealer position; the Dealer Button rotates clockwise after each hand, changing the position of the Dealer and blinds.
  - Each player is required to post an ante which is half the size of the button ante. For example, in 200-400 NLHE, each player posts 200 and the button posts 400.
  - Action always starts in the position to the left of the button.
  - The Dealer deals each player their own two (2) cards face-down.
  - The first betting round takes place.
  - The Dealer burns a card, then turns over three (3) community cards face-up (the flop).
  - The second betting round takes place.
  - The Dealer burns another card, and then turns over one (1) more community card (the turn or fourth street).
  - The third betting round takes place.
  - The Dealer burns another card, then turns over one (1) final community card (the river or fifth street).
- The last betting round takes place.
  - The showdown then takes place with all players who still have cards showing their hands.
  - The best high hand is awarded the pot by the Dealer.
