### SCOTT ROBERTS WINS SECOND CIRCUIT RING

*He collects \$6,994 for his victory*

Scott Roberts just joined the circle of repeat winners after taking down Event #4: \$400 No-Limit Hold'em at the Seminole Casino Coconut Creek. He defeated 65 players to take home the first place prize of \$6,994 and his second Circuit ring.

Although Roberts only plays poker semi-professionally, his poker talent is unquestionable. He won his first ring during the 2017/18 WSOP Circuit series after topping a field of 227 competitors in the \$250 Seniors Event at Harrah's New Orleans and today, he managed to claim another title.

He started the final table second in chips and kept adding to his stack, eventually taking over the chip lead.

"It feels unbelievable. I hit some hands, made some good moves, and got the chip lead."

Roberts defeated David Moreno heads-up for the title. Moreno is no stranger at the WSOP Circuit as he made multiple deep runs.

"He was a very tough opponent," commented Roberts.
