Buy-in:	\$400	Prizepool:	\$59,730

DALE JAMES BECOMES FORTH PLAYER AT HORSESHOE TUNICA TO WIN 1ST WSOP CIRCUIT RING

James secured first Circuit ring in a long-time coming.

Dale James just clenched his first WSOP Circuit ring and his largest Circuit cash for \$14,676 after outlasting 181 players in Event #3: \$400 No-Limit Hold'em.

"I'm excited," James said after his win, "It feels really great to win a ring, it has been a goal of mine for a really long time now."

James went into the final table at the bottom ladder of the list, sitting eighth in chips out of the final ten. It wasn't an easy ride to victory either, as the final table included multiple World Series of Poker Circuit ring winners.

However, he's been around poker long enough to understand the game well, and today, he was able to prove it.

"I was letting the other players eliminate each other in the beginning and waited patiently until I got some cards," James explained.

"I got pretty lucky, I was catching cards at the right time, and you know, things just worked out for me."

After three-time Circuit ring winner Charlie Dawson departed in third place, James held a slight chip disadvantage in the heads-up match against Michael Lins.

There were two key hands during the battle and one of them was a huge laydown.

“I turned trip fours in one of the last hands and led out after the river put three diamonds on the board.”

James continued, “Lins raised all-in which would’ve put me at risk and I was able to get away from it to pick a better spot.”

The impressive fold turned out to be the correct call as a few hands later he was able to river a flush of his own only this time, Lins paid him off and James was able to secure the victory a few short hands later.
