LOGAN PRUCNAL WINS 1ST CIRCUIT RING IN EVENT 10

Recreational poker player from Idaho Falls wins first ever live tournament

After about 14 hours of play, Logan Prucnal managed to come out on top in Event #10: \$400 No-Limit Hold'em for \$25,604, a gold World Series of Poker Circuit ring and a seat into the Tournament of Champions. "It's insane! Shaun Deeb was at the final table, and he's a pro and I'm just a recreational, so I really thought I had no chance at winning. I even told my Dad, he said give it your best shot," smiled Prucnal.

The newly crowned Circuit champion said he always watched poker as a kid, and that his Dad got him into the game as well. "I've watched pretty much every YouTube video you could see about poker. It's my biggest hobby. This is insane." Prucnal is a radiation protection technician by trade, and plays poker on the side. This is his first ever live cash, and managed to go all the way and win it.
