HAMID HOSSEINPOUR WINS FIRST GOLD RING

Hamid Hosseinpour takes down the \$250 No-Limit Hold'em event.

Hamid Hosseinpour just won the second event of the Bally's Casino World Series of Poker Circuit.

The third event of the series started Saturday morning, and the fast-paced structure resulted in a final table being reached less than six hours into Day 1. Hosseinpour was able to grab the chip lead after cracking aces with a set of six's, and kept the momentum going after that.

"I ran better than I played, honestly. It's just one of those things, I ran very well," Hosseinpour described his journey to victory.

Hosseinpour is a father of two daughters and works as a dealer, and does not usually play tournament poker. However, he decided to enter the WSOP ring event after being convinced by his friend – a decision that paid off.

"I'm not a tournament player. I just played today because my buddy wanted to play the series, and I came with just to mess around and ended up winning it. I ran very well," said the happy winner.

The run-good continued heads-up against Japan's Maaku Tanaka, a heads up match that lasted less than thirty minutes. Hosseinpour shoved his pocket-nine's pre-flop and Tanaka called and tabled aces. After no help on the flop, nor turn, the nine of spades peeled on the river to give Hosseinpour the victory.

Hosseinpour outlasted a field of 178 entrants to earn \$8,855 and his first WSOP Circuit gold ring. He also earns a seat in the Tournament of Champions, held in Las Vegas in the summer of 2022.
