29	50	10,000	30,000	60,000
30	50	10,000	40,000	80,000

Additional levels will be added as needed.

- **\$365 buy-in (\$300 prize pool + \$65 administrative fee)**
- Administrative fee includes any and all staffing/dealer fees, and rake.
- Players will start with 10,000 in tournament chips.
- This is a 5 day tournament. Day 2 will resume at 3:00 PM on the day following Flight F with a combined field of participants from the six starting flights that advanced to Day 2.
- This event is projected to begin payouts before the fields combine. Please refer to the WSOPC Bally's Payout description for Event #1.
- All "ring" events qualify to earn points for the WSOP National Championship.

Payout Appendix

Event #1 \$365 No-Limit Hold'em with unlimited re-entry

1. Each flight will play a total of 18 levels on Day 1. In the event that a flight reaches 10 players before the conclusion of Level 18, that flight will end. If a flight has not reached the money with 10 players remaining, due to the field size for that flight, play will continue until the first player reaches the money and then that flight will end.
2. In the event that one or more than one of the flights does not play to the completion of Level 18, the Day 2 tournament clock will begin at the time remaining in the level of play for the shortest flight played.
3. At the conclusion of play, a player will have an option to surrender his/her chip stack. A player that chooses to surrender will receive the payout amount equal to the highest payout already paid for that field. If the player's payout, according to the 2015-16 WSOP Circuit Payout tables, should be more than the highest payout already paid for that field, the remaining monies will be combined into the Day 2 prize pool.
4. Approximately 10% of the field will be paid.
5. A standard WSOP Circuit (WSOPC) payout will be calculated for each flight according to the 2015-16 WSOP Circuit Payout tables and based on total number of participants for that flight.
6. For example, if flight A has 500 players, a payout table for 54 places will be generated.
7. Using the example of 54 places paid, participants who finish in 54th or higher will receive the respective payout for that place in that flight.
8. The same process will occur for subsequent flights.
9. The total number of participants and remaining prize pool from each flight will be combined together for day two.
10. The remaining prize pool for participants surviving day 1 will be calculated using the percentage ratios derived from the appropriate WSOPC payout table that represents the TOTAL number of participants for the event.
11. For example, if there are 138 participants remaining out of a total of 2,751 for all four flights, the ratios for places 1-138 from the payout table 2,751-3,000 will be used to distribute the remaining prize pool.
12. The minimum payout for day 2 will be no less than the highest amount paid out to a single place on any day 1 flight.
13. Payouts on day 2 may require slight modification to ensure min cash is greater than or equal to the highest amount paid out to a single place from any day 1 flight.
14. Participants can cash in more than one flight if they are eliminated "in the money" during day 1 but do not make day 2.
15. On the official list of results, all players advancing to Day 2 will be listed in the order in which they are eliminated on Days 2 and beyond. Players who make the money but who do not advance to Day 2 will be listed in the order of total payout received. (Using the above example, places 1 through 138 will be based on order of elimination on Days 2, 3, and 4. Places 139 and above will be based on payouts for Day 1 eliminations). Player of the Year points will be awarded based off a player's best finish.
16. Player of the Year points will be calculated using places on the official list of results, described above.
